

ICSPD2023

The 7th Int'l Conference on Semiconductor Physics and Devices (ICSPD 2023) will be held during December 8-10, 2023 in Sanya, China. This Conference will cover issues on Compound Semiconductors, Emerging

Semiconductor Technologies, Ferromagnetism / Magnetic Semiconductors, Organic Semiconductors, Photoelectric and Photovoltaic Devices, Physics of Semiconductors and other related topics. It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods.

CALL FOR PAPERS

Complex Oxides
Compound Semiconductors
Device Design and Fabrication
Device Performance and Reliability
Emerging Semiconductor Technologies
Ferromagnetism
Magnetic Semiconductors
High Magnetic Fields
Impurities/Defects in Semiconductors
Light Emitting Diodes (LEDs)
Novel Semiconductor Devices
Organic Semiconductors
Photoelectric and Photovoltaic Devices
Physics of Semiconductors
Surface and Interface Physics
Semiconductor Lower Dimensions and Nanostructures
Semiconductor Spintronics / Topological Insulators
Semiconductor Detectors
Wide/narrow Band-gap Semiconductors
Other Related Topics

Venue

Sanya is superior in geography climate and natural resources. It is known as “the oriental Hawaii” and “Sunshine City” because of its special tropical scenes as well as its attractive nature. Sanya's tourist resources, richly endowed by nature, are not only special in China, but also rare in the world. It is a most fashionable place where tropical marine tourist resources are closely concentrated and lovers of swimming can enjoy their holidays in winter.
