

LOC 2023

The 8th International Laser and Optoelectronics Conference (LOC 2023) will be held during December 8-10, 2023 in Sanya, China. This Conference will cover issues on Laser and Optoelectronics. It covers issues on

Lasers, amplifiers, micro/nano-photonic devices, Laser Processing of Materials, Terahertz Technologies and Applications, Ultrafast Optics, Optoelectronic Devices and Applications, Short-pulse, solid-state, semiconductor, fiber, waveguide optical sources and devices, Active Optical Sensing and Metrology, etc. LOC 2023 dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods.

CALL FOR PAPERS

Lasers, amplifiers, micro/nano-photonic devices
Solid-state-, liquid and gas lasers, technology and devices
Average Power Lasers
Micro fabricated devices
Laser Processing of Materials
Femtosecond laser processing
Laser micro- and nanoprocessing
Laser Nanopatterning
Laser Synthesis of Nanomaterials
Laser Direct Write
Terahertz Technologies
Ultrafast time-domain systems
Terahertz optical measurements
Fiber-optic sensor and networks
White LED and related technologies
Biophotonics and Optofluidics
Optical coherence tomography
Photoacoustic techniques
Optics in biotechnology
Lab-on-chip devices
Active Optical Sensing and Metrology

Venue

Sanya is superior in geography climate and natural resources. It is known as “the oriental Hawaii” and “Sunshine City” because of its special tropical scenes as well as its attractive nature. Sanya's tourist resources, richly endowed by nature, are not only special in China, but also rare in the world. It is a most fashionable place where tropical marine tourist resources are closely concentrated and lovers of swimming can enjoy their holidays in winter.
