

NESD 2023

The 9th Int'l Conference on New Energy and Sustainable Development (NESD 2023) will be held during December 8-10, 2023 in Sanya, China. This Conference will cover issues on New Energy and Sustainable Development. It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods.

CALL FOR PAPERS

Shale Gas
Solar Energy
Geothermal Energy
Wind Energy
Ocean Energy
Biomass Energy
Fusion Energy
Nuclear Energy
Energy Resources and Their Efficient Use
Renewable and Clean Energy Technologies
Energy and Environment
Energy Economics
Energy Education, Policy and Planning
Energy Storage and Conversion
Sustainability indicators
Sustainable management
Sustainable marine ecosystems
Sustainable Process Model
Sustainable waste management
Education on Sustainability
development studies

Venue

Sanya is superior in geography climate and natural resources. It is known as “the oriental Hawaii” and “Sunshine City” because of its special tropical scenes as well as its attractive nature. Sanya's tourist resources, richly endowed by nature, are not only special in China, but also rare in the world. It is a most fashionable place where tropical marine tourist resources are closely concentrated and lovers of swimming can enjoy their holidays in winter.
