

# APSS 2020

**The 7th Conference on Astrophysics and Space Science (APSS 2020)** will be held in Sanya, China during December 5-7, 2020. APSS is an annual regular conference since 2015 and has been successfully held in Shanghai, China and Bangkok, Thailand. It covers issues on **Celestial mechanics, Life sciences as related to space, Solar and stellar physics, Theoretical astrophysics, High-energy astrophysics, Particle astrophysics, etc.** APSS 2020 will be a valuable and important platform for inspiring Int'l and interdisciplinary exchange at the forefront of Astrophysics and Space Science.

**C o n f e r e n c e D a t e :** December 5-7, 2020

**V e n u e :** Sanya, China

**R e g i s t r a t i o n D e a d L i n e :** Dec. 5, 2020

## CALL FOR PAPERS

### Topics of interest for submission include, but are not limited to :

- Celestial mechanics
- Cosmic rays and gamma astronomy
- Cosmology
- Earth-moon system
- Earth's surface
- Extragalactic astronomy
- Extrasolar planets
- Heliospheric physics
- Interstellar matter
- Planets ionospheres & magnetospheres
- Life sciences as related to space
- Magnetospheric physics
- Miscellaneous
- Planets, comets, asteroids & dust
- Scientific instrumentation
- Solar and stellar physics
- Solar terrestrial physics
- Solar terrestrial relations
- Interstellar terrestrial relations
- Theoretical astrophysics
- High-energy astrophysics
- Particle astrophysics

## Publication and Presentation

Publication: Open Access Journal.

Index: CNKI and Google Scholar

Note: If you want to present your research results but do NOT wish to publish a paper, you may simply submit an Abstract to our Registration System.

## Venue

Sanya is superior in geography climate and natural resources. It is known as "the oriental Hawaii" and "Sunshine City" because of its special tropical scenes as well as its attractive nature. Sanya's tourist resources, richly endowed by nature, are not only special in China, but also rare in the world. It is a most fashionable place where tropical marine tourist resources are closely concentrated and lovers of swimming can enjoy their holidays in winter. Within the city, well-known tourist spots are dotted everywhere--the national Yalong Tourist Area, the Tianyahaijiao, the Great Eastern Sea, the Luhuitou Peninsula, Sanya Bay and the Luobi Grotto. Besides these, there remain the ancient Yazhou City and relics and a sculpture of the Monk Jianzhen of the Tang Dynasty, who landed ashore to avoid the storm when he was sailing eastwards to Japan.
