

CACB 2020

The 5th Int'l Conference on Advances in Cell Biology (CACB 2020) will be held during December 5-7, 2020 in Sanya, China. The conference will cover issues on **Cell culture, manipulation and emerging cell technologies/Cell engineering, Cell energy and metabolism, Cell signal transduction, Cell structure, events and functions, Cellular immunology, Cellular physiology, Cellular senescence, apoptosis and autophagy, Cytopathology, etc.** It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods in related fields.

CALL FOR PAPERS

C o n f e r e n c e D a t e : December 5-7, 2020

V e n u e : Sanya, China

R e g i s t r a t i o n D e a d L i n e : Dec. 5, 2020

Topics of interest for submission include, but are not limited to :

Cell culture, manipulation and emerging cell technologies / Cell engineering
Cell energy and metabolism
Cell signal transduction
Cell structure, events and functions
Cellular immunology
Cellular physiology
Cellular senescence, apoptosis and autophagy
Cytopathology
Ethics / Legal issues
Membrane biology
Stem cells
The teaching of Cell Biology
Translational cell biology

Publication and Presentation

Publication: Open Access Journal.

Index: CNKI and Google Scholar

Note: If you want to present your research results but do NOT wish to publish a paper, you may simply submit an Abstract to our Registration System.

Venue

Sanya is superior in geography climate and natural resources. It is known as “the oriental Hawaii” and “Sunshine City” because of its special tropical scenes as well as its attractive nature. Sanya's tourist resources, richly endowed by nature, are not only special in China, but also rare in the world. It is a most fashionable place where tropical marine tourist resources are closely concentrated and lovers of swimming can enjoy their holidays in winter. Within the city, well-known tourist spots are dotted everywhere--the national Yalong Tourist Area, the Tianyahaijiao, the Great Eastern Sea, the Luhuitou Peninsula, Sanya Bay and the Luobi Grotto. Besides these, there remain the ancient Yazhou City and relics and a sculpture of the Monk Jianzhen of the Tang Dynasty, who landed ashore to avoid the storm when he was sailing eastwards to Japan.
