

CSPT 2020

Int'l Conference on Solar Photovoltaic Technology (CSPT 2020) will be held from December 5-7, 2020 in Sanya, China. This conference will cover issues on **High efficiency photovoltaic cells, Photovoltaic systems, Photovoltaic technology, Solar Cell Materials and Structures, Solar energy and energy systems, etc.** CSPT 2020 dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods.

CALL FOR PAPERS

C o n f e r e n c e D a t e : December 5-7, 2020

V e n u e : Sanya, China

R e g i s t r a t i o n D e a d L i n e : Dec. 5, 2020

Topics of interest for submission include, but are not limited to :

Absorber Materials
Cadmium telluride photovoltaics
Copper indium gallium selenide solar cell
Crystalline silicon Solar Cells
Flat-plate thin film photovoltaics
Heterojunction Solar Cell
High efficiency photovoltaic cells
Homojunction Solar Cells
Monocrystalline silicon Solar Cells
Multi-junction solar cell
Perovskite solar cell
Photovoltaic concentrators
Photovoltaic Energy Conversion
Photovoltaic systems
Photovoltaic technology
Photovoltaics and electricity
Polycrystalline silicon Solar Cells
Renewable energy cost
Silicon thin-film cells
Solar Cell Device
Solar Cell Materials and Structures
Solar cells Solar Cells and Solar Energy Conversion
Solar energy and energy systems
Surface-Barrier Solar Cells
Thin-film solar cell

Publication and Presentation

Publication: Open Access Journal.

Index: CNKI and Google Scholar

Note: If you want to present your research results but do NOT wish to publish a paper, you may simply submit an Abstract to our Registration System.

Venue

Sanya is superior in geography climate and natural resources. It is known as "the oriental Hawaii" and "Sunshine City" because of its special tropical scenes as well as its attractive nature. Sanya's tourist resources, richly endowed by nature, are not only special in China, but also rare in the world. It is a most fashionable place where tropical marine tourist resources are closely concentrated and lovers of swimming can enjoy their holidays in winter. Within the city, well-known tourist spots are dotted everywhere--the national Yalong Tourist Area, the Tianyahaijiao, the Great Eastern Sea, the Luhuitou Peninsula, Sanya Bay and the Luobi Grotto. Besides these, there remain the ancient Yazhou City and relics and a sculpture of the Monk Jianzhen of the Tang Dynasty, who landed ashore to avoid the storm when he was sailing eastwards to Japan.
