

PECER 2020

The 4th Int'l Conference on Petrochemical, Energy Conservation and Emissions Reduction (PECER 2020) will be held from December 5-7, 2020 in Sanya, China. This Conference will cover issues on Petroleum and Petrochemical Engineering, Geomechanics and Rock Physics, Energy Conservation and Emissions Reduction, Energy planning studies, Energy saving and emissions reduction in industries, etc. It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods.

CALL FOR PAPERS

C o n f e r e n c e D a t e : December 5-7, 2020

V e n u e : Sanya, China

R e g i s t r a t i o n D e a d L i n e : Dec. 5, 2020

Topics of interest for submission include, but are not limited to :

Petrochemical

Petroleum and Petrochemical Engineering
Fossil Technologies
Geomechanics and Rock Physics
Geology and Geochemistry
Reservoir Characterization
Reservoir Fluids
Reservoir Geophysics
Oil & Gas Exploration
Offshore Technology
Hydrocarbons Recovery Mechanisms
Oil & Gas Production
Enhanced Oil Recovery

Energy Conservation and Emissions Reduction

Energy planning studies
Energy saving and emissions reduction in industries
Energy intensive industries
Sustainable transportation and transport integration
Energy investment feasibility
Environmental management
Environmental risk Analysis
Climate and global change
Design and nature

Publication and Presentation

Publication: Open Access Journal.

Index: CNKI and Google Scholar

Note: If you want to present your research results but do NOT wish to publish a paper, you may simply submit an Abstract to our Registration System.

Venue

Sanya is superior in geography climate and natural resources. It is known as "the oriental Hawaii" and "Sunshine City" because of its special tropical scenes as well as its attractive nature. Sanya's tourist resources, richly endowed by nature, are not only special in China, but also rare in the world. It is a most fashionable place where tropical marine tourist resources are closely concentrated and lovers of swimming can enjoy their holidays in winter. Within the city, well-known tourist spots are dotted everywhere--the national Yalong Tourist Area, the Tianyahaijiao, the Great Eastern Sea, the Luhuitou Peninsula, Sanya Bay and the Luobi Grotto. Besides these, there remain the ancient Yazhou City and relics and a sculpture of the Monk Jianzhen of the Tang Dynasty, who landed ashore to avoid the storm when he was sailing eastwards to Japan.
